**ABOUT PERC AND DATA ACCESS:** Private Equity Research Consortium (PERC) is a group of scholars and industry professionals that conducts and promotes research on private equity. The core mission is to develop better understanding of how private capital investments affect both financial results and broader economic outcomes. PERC has an exclusive arrangement with Burgiss to provide access to data for academic research. The Burgiss dataset includes over 8,900 funds with more than \$6.3 trillion in assets. Data are sourced directly from limited partners and contains full performance histories of cash flows at the fund level. PERC periodically accepts applications from academic researchers for access to Burgiss data. The next deadline for proposal review is July 31, 2019 with a response date of August 30, 2019.
