

SAVE THE DATE AND CALL FOR PAPERS

2022 PERC SPRING SYMPOSIUM

Conference Date: May 26-27, 2022
Location: Saïd Business School, University of Oxford, U.K.
Submission Deadline: January 14, 2022

We invite submission of theoretical and empirical papers in the broad field of private equity, including, but not limited to research on buyouts, distressed securities, mezzanine financing, special situations, private credit, venture capital, real estate, and real assets. The conference will be hosted in-person by the Private Equity Research Consortium and the Institute for Private Capital (IPC) at the University of Oxford, Saïd Business School.

Papers at all stages of completion (including work-in-progress) are invited and should be submitted any time before the **deadline of January 14, 2022**. Please include your full name, title, name and address of affiliated institution/university/company, and a confirmed conference presenter. Submissions can be sent to KIPproposal@kenan-flagler.unc.edu with “PERC Oxford” in the subject line.

Presenters with full-time academic appointments will receive complimentary conference registration, accommodations in Oxford, and will be reimbursed for reasonable economy-class advance purchase airfare. The conference review committee consists of faculty members of the PERC advisory board:

Prof. Gregory W. Brown, Kenan-Flagler Business School, UNC at Chapel Hill
Prof. Robert Harris, Darden Graduate School of Business, University of Virginia
Prof. Tim Jenkinson, Saïd Business School, Oxford University
Prof. Yael Hochberg, Jones Graduate School of Business, Rice University
Prof. Steven N. Kaplan, Booth School of Business, University of Chicago
Prof. David Robinson, Fuqua School of Business, Duke University

ABOUT PERC AND DATA ACCESS: Private Equity Research Consortium (PERC) is a group of scholars and industry professionals that conducts and promotes research on private equity. The core mission is to develop better understanding of how private capital investments affect both financial results and broader economic outcomes. PERC has an exclusive arrangement with Burgiss to provide access to data for academic research. The Burgiss dataset includes over 10,000 funds with more than \$8.6 trillion in assets. Data are sourced directly from limited partners and contains full performance histories of cash flows at the fund level. PERC periodically accepts applications from academic researchers for access to Burgiss data. The next deadline for proposal review is January 31, 2022 with a response date of February 28, 2022. Please see <http://uncipc.org/> for additional details.
