**10:15 – 10:45**     **Networking Break**

**10:45 – 12:15**     **Session II: Panel Sessions**

Session Chair: Greg Brown, *UNC Kenan-Flagler Business School*

**Panel A: ESG Measurement in Alternatives (45min)**

Generating transparent and accurate ESG metrics is challenging for public companies. For private companies and other alternative investments it is even more difficult. A lack of publicly-disclosed regulatory data for private companies, portfolio opacity of hedge funds, and challenging measurement issues for real assets are just some of the issues. In this session, industry experts discuss efforts to better measure ESG factors in alternatives and what will be needed to bring metrics for alternatives up to the standard for public companies.

Moderator: Christopher Polk, *London School of Economics*

**Panel B: Social Responsibility & Governance in Private Companies (45min)**

The governance structure of private companies differs fundamentally from that of public companies. In most cases private firms have concentrated ownership in the form of institutional general partnerships. While this sidesteps some common governance challenges facing public companies, it creates others. Similarly, evaluating social responsibility outcomes for private companies is often complicated by differing operating models, constraints and standards. In this session, industry experts delve into if and how investors should vary their evaluation of S&G factors for private versus public companies.

Moderator: Michael Ewens, *Columbia Business School*

**12:15 – 12:45 Lunch Available and Networking Break**

**12:45 – 2:00 Session III: ESG and the Cost of Capital**

Session Chair: Russell Wermers, *Univ. of Maryland Smith School of Business.*

**The Allocation of Socially Responsible Capital**

Benjamin N. Roth, Harvard Business School

Daniel Green, Harvard Business School

**ESG Investing in Emerging Markets: Betting on Firm Fundamentals or Riding Investor Preferences?**

Adrien Alvero, Columbia Business School

Wang Renxuan, CEIBS

**Impact Investing and Venture Capital Industry: Experimental Evidence**

Ye Zhang, Stockholm School of Economics

**2:00 Closing Remarks & Networking**

**Sponsored By:**
