ABOUT PERC AND DATA ACCESS: Private Equity Research Consortium (PERC) is a group of scholars and industry professionals that conducts and promotes research on private equity. The core mission is to develop better understanding of how private capital investments affect both financial results and broader economic outcomes. PERC has an exclusive arrangement with MSCI-Burgiss to provide access to data for academic research. The dataset includes over 12,700 funds with more than \$10 trillion in assets. Data are sourced directly from limited partners and contains full performance histories of cash flows at the fund level. Select holdings-level data are also available. PERC periodically accepts applications from academic researchers for access to MSCI-Burgiss data. The next deadline for proposal review is July 31, 2024 with a response date of August 30, 2024.
